## Agency Case Study: Huntsville Police Department (AL)

### ***A Multi-Year Partnership Elevating Firearms Performance Across the Department***

#### **Overview**

In 2021, Guardian Training & Consulting Founder and Director of Training **Josh Logan** began a professional relationship with the **Huntsville Police Department** after meeting with their **Rangemaster and training staff**. That meeting led to a **3-day custom course for HPD's Special Operations Group (SOG)** and opened the door to ongoing collaboration focused on enhancing performance-based firearms training at all levels of the agency.

Since then, Guardian has returned to Huntsville **multiple times** to train patrol officers and tactical units using our IADLEST-Certified course, *Shooting at the Speed of Efficiency – Pistol*, as well as a customized 1-day rifle/pistol course for their SWAT team, and an upcoming 2-Day Vehicle Combatives Instructor Development Course.

## 🤝 A Partnership Built on Trust and Performance

Since 2021, Guardian has maintained consistent communication with HPD's Rangemaster to ensure training delivery aligned with operational needs—whether for SWAT, SOG, or patrol. That commitment led to multiple return visits and continued integration of Guardian's performance-based training models.
